RECEIVED

SEP 23 1970

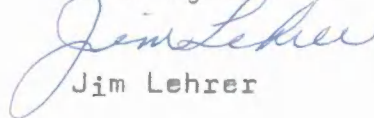

DNR Region 111

Dear Sir,

I'm writing to inform you that it will be doubtful if I can be in a successful land fill by Oct. 1. I've made considerable progress along these lines. Due to wet and inclement weather a halt has been called in operations. Operation will resume when the weather gets more favorable again.

I feel that two weeks of working days will be sufficient to complete operations. This would take us to Oct. 20. I sincerely hope you grant this extra needed time. Thank you for your kind consideration.

Thank Again

Jim Lehrer
